

Elizabeth Baron Has Been Warning Us About Iran, Syria, And North Korea Since 1987

Below is a chronological listing of these important prophecies.

WHITE PAPER

PROPHECIES FOR 1997

ALLIES OR ENEMY ACTIVITY?

America is looked upon by foreign countries with envy, hatred, pride, and many other emotions. There are a number of countries that will ban together for an attempt of an overthrow of our government. They will be Syria, China, parts of Russia, Iraq, Iran and Lebanon. However, some of these countries may retreat before this plan is put forth.

AS REPORTED ON NEWSMAX.COM – MAY 2004

Mystic: Iraqi Prisoner Photos a 'Set-up'

10 May, 2004--We usually don't report on psychic phenomena - "out there" as it is. Still, we get some unusual observations over the transom from time to time.

It is important for everyone to pray for peace because this war can go into another war and that could go into another war and as you know, two of the most dangerous places on earth are Iran and North Korea. These people have the ability to create mass destruction in many ways so it is important for everyone to pray for peace at this time."

MAY 2004

It is important for everyone to pray for peace because this war can go into another war and that could go into another war and as you know, two of the most dangerous places on earth are Iran and North Korea. These people have the ability to create mass destruction in many ways so it is important for everyone to pray for peace at this time.

JULY 2005

As far as Russia is concerned, there are those in that country who have been the enemy of America long before the Iron Curtain was removed. There is no such thing as anything being removed because there are those who still have their old ways in their hearts and there are people who are rebelling against America having any kind of inroads into the Iraqi oil fields and any other benefits they feel that are coming from taking the pathway Americans have taken. Pray for the soldiers, because there will be deaths and these deaths can be great surprises because these enemies are coming in through Syria and even through some of the areas where the Kurds feel they are protecting the borders. They are certainly coming in from Iran. There needs to be much more guarding on the borders of Iraq, much more than the borders in America.

Pray for the President of the United States that he makes the right decisions because when it comes right down to it, he has to give the go ahead to the generals and leaders over there. So pray that he will be led by divine guidance to protect these soldiers so that this battle does not go down in history. Many things can be changed through prayer.
