

PREPARATION FOR LIFE READING

Elizabeth starts the reading with a prayer that God will allow her to go into the soul of the client and give a life reading. Then she closes her eyes; goes into a trance-like state to keep her human self out of the way. She asks no questions and only needs your name in order to tune in. Therefore, the client must prepare for the reading. It is important to be in a room alone with no one listening to the reading. If there are two people in the room, the reading will be distorted and much of the information will be for both the listeners of the reading.

To prepare for the reading so that Elizabeth will be a good channel, first, pray for her that she will be a good channel for you. Second, think about and write down a few concerns that you have. Set some new goals for yourself and if you are getting a reading to find how to help someone else, it is best that you just give them a gift certificate. Think about how you can make the world a better place; how you can help yourself and your family; most of all, what you can do to make your future successful and complete.

A Life Reading consists of the past, the present, the future. If there are dead loved ones out there who have not gone on, if they are trying to reach you, they will come through because Elizabeth is a medium. Psychics cannot be in touch with the dead; that is what mediumship is all about. Medium means channeling from the Other Side.

A Life reading consists of health problems, financial, personal, spiritual problems, and Spirit really talks through Elizabeth as if spirit was your best friend and knew everything about you. A life reading gives direction, hope and solutions to one's problems. Everything is taped (1/2 hour of a trance session and 1/2 hour of questions by the client). Elizabeth sometimes introduces you to your guardian angel; that is, if you are ready to meet the guardian. The cassette tape is mailed that same day.

Most clients comment afterwards, "I feel as if I have a new start in life; much of what you said, I have thought about but just never acted on those thoughts or ideas; now I know that these things will work for me and that I'm not just dreaming".. In other words, much of the reading is confirmation; but there are many revelations of the future that a client must prepare themselves for by walking down their spiritual path of hope, truth and beauty.
