

THE JOURNEY WITHIN

A 12 WEEK COURSE GUIDED BY ELIZABETH BARON THROUGH CORRESPONDENCE

BY: ELIZABETH BARON

A Pathway to Spiritual Awareness and Developing Your Own Sixth Sense

This Correspondence Course consist of twelve weeks of lessons which Elizabeth Baron has been teaching and perfecting for the last 26 years. Through each lesson, Elizabeth Baron guides the student into his or her life's purpose and learning to understand that hunches, feelings and dreams help the student to develop their own spiritual gifts. Elizabeth also guides her students carefully into accepting their sixth sense and using it as something as natural and normal as brushing your teethe each day. Through Elizabeth introducing you to your own guardian angel, you grow, and learn to make that communication with your guardian angel and your Creator yourself.

THE JOURNEY WITHIN

(A PSYCHIC AND SPIRITUAL DEVELOPMENT COURSE)

Everyone who is borne to this world has a special spiritual gift. Some of us have the gift of intuition, some are healers, others have a gift of music, or art, or leading or teaching. We are totally lost on earth until we discover our gift and our purpose. When we realize our special gifts, we are at peace with ourselves and are totally functional in our society. Until that gift is found, we are always searching for ourselves through something or someone outside ourselves, a search that always comes to a dead end.

What is your gift? Your special gift is given to you to fulfill your purpose here on this planet. As a person on a spiritual pathway, it is your duty to develop your gift to its highest capacity; and to use it for the good of mankind and also as your career.

A life reading from Elizabeth Baron reveals that purpose or that gift that may have never been developed until now. She introduces you to your guardian angel to work with you throughout your life, with your permission.

If your gift happens to be that you are highly intuitive, it may be that you want to develop that gift for personal reasons; however, once you begin the class and start opening up some of your spiritual centers to reach your God consciousness, you may decide to be a professional medium, such as Elizabeth. It is somewhat a calling, and it comes with great responsibility.

Everyone needs guidance and you can learn to be that mentor to others; but more importantly, you can learn to be a better parent, a better partner, a better friend and contribute greatly to the world you live in.

We offer a twelve week course and when you sign up; we immediately send you a big Priority box with twelve lessons and a CD on How to Meditate properly. Each week, you meditate daily and take one lesson and then you email Elizabeth of your progress. She teaches and guides you through the twelve lessons, safely opening up your charkas or spiritual centers. At the end of the course, you receive a beautiful graduation certificate. The cost is \$350.00 MC/Visa.

If, after you graduate from the Beginner and Advanced Class (the twelve weeks) you are interested in getting certified as a teacher of your own spiritual course, and you wish to use your psychic gifts to channel either for your friends or professionally, we have a Teacher's Certification Course which is fourteen weeks at the cost of \$500.00.

This course involves lessons on channeling, mediumship, astral travel, getting to know and work with your guardian angel and learning to serve your community. There is a detailed class on setting up your own meditation group, where you can channel for that group and start your own business; if that is something you are interested in.
